Profile

Result-driven Software developer with a solid background in Angular and .NET and over 5 years of experience in designing and implementing scalable and efficient frontend and backend solutions. I leverage Angular and dotnet to create dynamic and user-friendly web applications, ensuring high performance, and security. I have a proven track record of collaborating with cross-functional teams to deliver high-quality software that meets client requirements and exceeds expectations.

Professional Experience

Full Stack Developer | Angular and Dotnet, Marcator 🔗

04/2024 – present
Abuja, Nigeria

- At Marcator Technology, I am working as a Full Stack Developer specializing in Angular and .NET.
- I contribute to the development of QueensVault, an application designed for customers to save money and earn interest while their funds are utilized for business ventures. The platform also supports recurring savings from customers' bank accounts to QueensVault.
- Automated recurring savings with Hangfire.
- Integrated Termii and Zoho for processing SMS and email notifications.
- Integrated Doja for verifying user identity with their NIN and BVN.
- Implemented payment processing with Paystack and both card and account management with Providus Bank.
- Designed and Implemented Inter and Intra Transfer, withdrawal, deposit balance inquiry, and many other features on the admin dashboard of the site using angular.

Angular Developer, Stackbuld | Contract 🔗

03/2024 – 08/2024
Lagos, Nigeria

- Developed an admin portal for an e-commerce application in a team of 6.
- Automated creating orders on behalf of a customer from the admin.
- Implemented web socket to get real-time prices for logistic providers.
- Developed a feature where orders can be batched to have the same destination and logistic providers
- Achieved 99.9% customer satisfaction on the user side of the application by fixing most of the issues they had while using the application.
- Connected a new Nextjs site with the old Angular app by sharing user cookies in the same domain, so when the user logs in on any of the apps the details will also be available when navigated.
- Improved security by making sure all the user input is well validated and avoiding sensitive console logs on production to mitigate XSS attacks.

Full-Stack Software Engineer, Tenece Professional Services

05/2023 – 02/2024
Enugu, Nigeria

- My team collaborated closely with company partners to gather requirements, ensuring software solutions met specific needs and were delivered on schedule.
- We have engineered a range of RESTful APIs using .NET Core, streamlining data exchange between front-end and back-end systems.
- We maintained and updated legacy systems, ensuring continuous compatibility and minimizing system downtime.

<ul style="list-style-type: none"> • We also conducted comprehensive unit/integration testing using Xunit for .NET and Jasmine for angular ensuring software reliability and functionality. 	
Full-stack Software Engineer, WICRYPT <ul style="list-style-type: none"> • Advanced in knowledge by participating in building and deploying .Net and Angular applications. • Developed secure software systems using C#, ASP.NET, and Angular. • Improved system efficiency and user experience with robust applications. • Worked closely with my team to Manage and optimize systems on AWS for best performance and security. • Increased user engagement through interactive web UIs with Angular. • Collaborated in agile projects for timely delivery of project goals. • Adapted to emerging technologies and industry trends. 	05/2023 – 08/2023 Enugu, Nigeria
Software Engineer Intern, Genesys Tech Hub <ul style="list-style-type: none"> • Received comprehensive training in software development with a focus on .NET and Angular technologies. • Practiced Agile methodologies throughout the software development training life cycle, enhancing my efficiency and productivity to 30%. • Gained hands-on experience in building, testing, and debugging applications. • Collaborated with experienced software engineers and developers, gaining invaluable insights into professional software development. • Participated in regular stand-ups, planning meetings, and retrospectives, further understanding the Agile development process. • Applied learned concepts and principles in real-world projects, effectively translating academic knowledge into practical skills. 	11/2022 – 05/2023 Enugu, Nigeria
Tech Hub Training Program, Enugu State Tech Hub <ul style="list-style-type: none"> • Completed an intensive and comprehensive training program covering web development from concept to deployment. • Acquired proficiency in front-end technologies including Vanilla JavaScript, Vanilla CSS, and HTML. • Gained hands-on experience in designing and styling websites using Bootstrap for responsive and user-friendly interfaces. • Developed dynamic and interactive features using PHP for server-side scripting. • Collaborated with peers on the development of a fully functional e-commerce site, showcasing end-to-end project management skills. 	09/2021 – 07/2022 Enugu, Nigeria

Skills

C#/.NET Core | Asp.net Core

AWS | Railway | Render | DevOps | Testing | Microservice

Angular | Angular material

Dependency Injection | NgRx | Testing | Routing | Security

SSMS | MySql

React | NextJs

Routing | State management(Redux and React Context)

Git

Github | Gitlab

Soft Skills

Communicative, Detail-Oriented, Problem Solving, Empathy , Courage and Humility.

Certificates

Certified C#/.NET and Angular

Full-Stack Engineer |
Genesys Tech Hub

Certified React Developer | Andela

React | Redux | Testing.

Certified Fronted-end Developer Enugu Tech hub

Js, Html | Css | B3 | Tailwind

Certificate of participation | Web5 Hackaton

NextJs & Web5 JS SDK
